Member Highlight

Kendall won 1st place in the state and 3rd place nationally in a contest called Trig Star which tests a student's knowledge in trigonometry. She also won first place in her division at the National Artistic Roller Skating competition. In addition to the cool stuff she does outside of Ag, she is a staple in the floral program. She has worked countless hours outside of school on wedding and events for her floral SAE. Congratulations Kendall! We are so proud of you!
