MEMBER HIGHLIGHTS

Congratulations to Westin Havens and Kyla Pearson!

Westin Havens

Westin is in Ag Chemistry, he is always willing to answer questions and speak up no matter what. Thank you for your willingness to participate, it does not go unnoticed. Great job Westin, keep up the good work!

Kyla Pearson

Kyla always shows up to first period with a smile, wanting to participate and be helpful over Zoom. She has an excellent Agriscience Research Project planned out, doing feed trials with her goats. She also competed in Job Interview this year. Super proud of how she stepped up!

Horticulture

For this week we will be highlighting Horticulture! As of current the students are in research mode and preparing for when we hopefully get to be back on campus. For future plans we are engineering our garden beds to come. Each student will be growing their own small variety of vegetables, flowers, and other plants that will eventually be included within a subscription box for preplanned meals. Other notable projects that we are working on are the flower field, vineyard, & orchard across the street from the high school. (Keep a look out for the McCaffery farm just in front of Liberty Ranch High!) There the LR Floral Crew is beginning to plant a variety of things, from different fruit trees to grapes to a flower field for the students to use in arrangements. One more exciting project is the interscaping business that the Horticulture Girls are dabbling in.

We'd like to wish all of the teams good luck, and encourage them to do their best!

California FFA 5k

Participants across California will enjoy running or walking a 5K route of their choice from March 21-28, 2021. Registration is \$15 per participant. Registration includes a racing bib for participation. T-shirts may also be purchased. Your entry fees keep California FFA programs affordable, facilitate participation by more students, and provide development for those students in agricultural education.
